Exclusions

This is a summary of policy exclusions. The policy contains other, more specific, exclusions and limitations not fully explained in this benefit summary.

- The plan does not cover services started before coverage begins or after it ends. Services must be necessary and appropriate for the claimant's condition. Benefits are limited to services specifically shown on the list of procedures included in the policy, unless coverage for additional services is required by state law. Benefits are not payable for duplication of services or for treatment by a practitioner who lives with or is related to the employee or dependent.
- Benefits are not payable for placement of a prosthetic, unless it is needed to replace teeth extracted while covered. Installation, maintenance or removal of implants or any related expense is excluded. Policy does not cover the cost of athletic mouth guards, appliances to correct harmful habits or the replacement of lost or stolen dental appliances. Policy excludes services for treatment of TMJ or congenital malformations, except as required by law.
- Benefits are not payable for veneers, cosmetic procedures or medications administered outside the dentist's office, for prescription drugs, or for analgesia, sedation, hypnosis or acupuncture administered for the purposes of alleviating anxiety or apprehension. Nitrous oxide is not covered.
- Plan benefits are not payable for a condition for which the claimant is eligible for benefits under worker's compensation or a similar law; or for a condition attributed to employment or military service. Coverage is not available for dental conditions caused by an act of war, self-inflicted injury, involvement in an illegal occupation, attempt to commit a felony, or active participation in a riot.
- If benefits for orthodontia are included, the plan does not cover any treatment plan started before coverage begins or during the benefit waiting period unless the member was receiving orthodontia benefits from this employer's previous group dental policy. In that case, Lincoln Financial will continue orthodontia benefits until the combined benefit paid by the two policies is equal to this policy's lifetime orthodontia.

Alternative benefits provision

In certain situations there may be two or more methods of treating a dental condition. Your policy includes an alternative benefits provision that may reduce benefits to the lowest cost, generally effective and necessary form of treatment. For example, the policy covers amalgam fillings on posterior teeth even if tooth-colored fillings are used.

Late entrants

If you enroll more than 31 days after becoming eligible, you will be subject to the plan's Late Entrant limitation and Prior Carrier Credit will not be available.

Predetermination of benefits

Allows you to find the amount covered prior to having a dental procedure. We recommend that you use this service when expenses are expected to exceed \$300.
