

Why Should I call MAP[®] ?

- ❖ Questions about your medical concerns
- ❖ Assistance with finding highest quality and cost-effective providers and medical facilities in your network
- ❖ Different treatment options
- ❖ Qualified second opinions
- ❖ Medical questions to ask your doctor

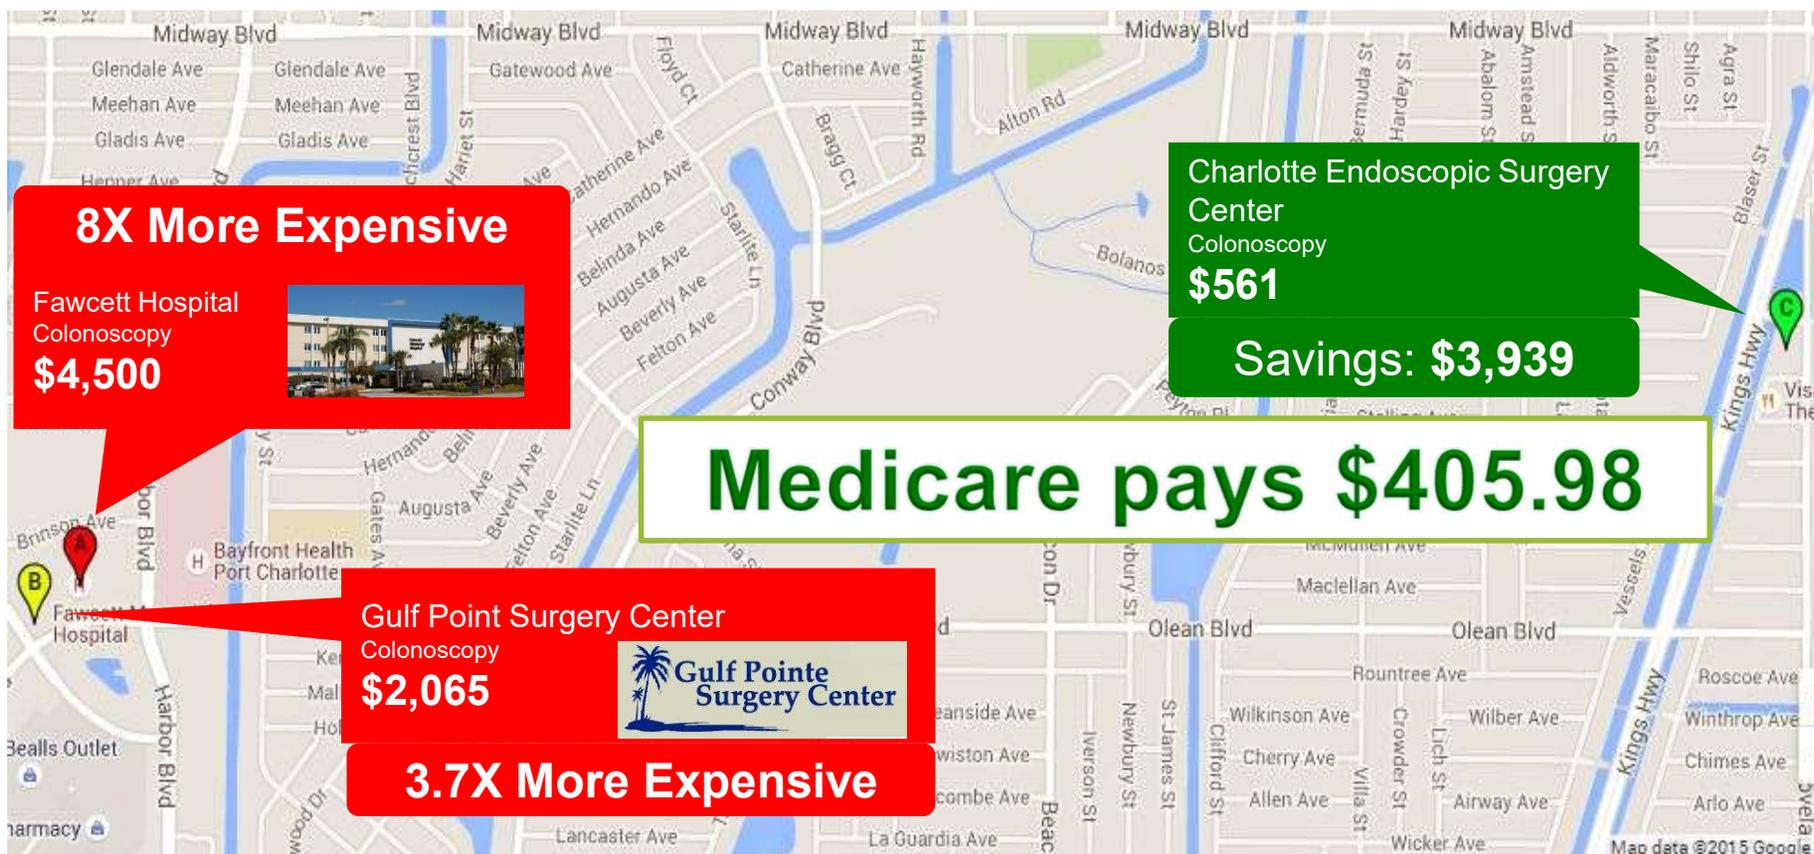

Example - Physician: Open Heart

How do we get employees to go to Physician "B" over Physician "I"?

Why call MAP?

Best care, best cost, and you can earn additional cash!

- ❖ In order to take full advantage of the insurance plan design enhancements, plan members will be required to call MAP before scheduling any precerted procedures, elective services, surgeries, or procedures. MAP connects you to a quality health advisor who can guide you to the most effective care from both a cost and quality review.
- ❖ Members who call MAP and follow the MAP recommendation prior to scheduling any precerted procedures, elective services, or surgeries, SDOC will **waive their deductible for that procedure**.
- ❖ For members who call MAP but elect to have a procedure performed at another location or by another provider, the insurance plan will pay its usual benefits, with the current co-pays, deductibles, and out of pocket limits.
- ❖ Members who choose to have a precerted or elective procedure performed without contacting MAP for assistance in advance will be charged an additional \$250 co-pay, on top of the current plan design co-pays, deductibles, and out of pocket limits.

Why call MAP?

Best care, best cost, and you can earn additional cash!

- ❖ Your first responsibility is to contact MAP® as soon as you are told you need to have a major medical service.
- ❖ MAP® will attempt to negotiate a cash price for your procedure that is less than your medical plan's cost.
- ❖ SDOC has partnered with MAP® to help **YOU** and the plan save money. **We recommend you go to Tier 1 providers, but in the event you can't, you may receive some of the shared savings to help offset your cost in Tier 2 or Tier 3.**
- ❖ Give MAP® at least **FIVE DAYS** to work with you to find the best option!
