Good health starts with a healthy mouth

Make dental visits a priority

One of the first lines of defense in overall health is dental care. Regular dental cleanings can help manage problems throughout the body, such as heart disease, diabetes, and stroke. The HumanaDental Prepaid plan enables you to take better care of your teeth, and you'll pay less for your dental care doing so.

Go to MyDentalIQ.com

Take a health risk assessment that immediately rates your dental health knowledge. You'll receive a personalized action plan with health tips. You can print a copy of your scorecard to discuss with your dentist at your next visit.

Tips to ensure a healthy mouth

- Use a soft-bristled toothbrush
- Choose toothpaste with fluoride
- Brush for at least two minutes twice a day
- Floss daily
- Watch for signs of periodontal disease such as red, swollen, or tender gums
- Visit a dentist regularly for exams and cleanings

Custom HumanaDental Prepaid HS195 Plan

The HumanaDental Prepaid plans focus on maintaining oral health, prevention and cost-containment. Members may see a primary care dentist as often as necessary. There are no yearly maximums, no deductibles to meet and no waiting periods. HS plans copayments for listed procedures are applicable at either a participating general dentist or a participating specialist dentist.

A primary care dentist (PCD) may decide that a member needs to see a contracted dental specialist. No referral is necessary to see a network specialist.

Specialists services: Should members need a specialist, (i.e., endodontist, oral surgeon, periodontist, pediatric dentist), they may be referred by a participating general dentist, or members can self-refer to any participating specialist. Visit **Humana.com** to find a participating specialist.

Summary of services

Services marked with a single asterisk (*) below also require separate payment of laboratory charges, not to exceed \$200. The laboratory charges must be paid to the plan dentist in addition to any applicable copayment for the service.

Extended annual maximum

Unique solution for extended coverage

With Humana's **Extended annual maximum**, employees won't have to put off important dental care procedures for themselves or their covered dependents.

Extended annual maximum is available immediately after the annual maximum for a plan is reached, and there's no cap on the dollars paid in a year. That's an attractive advantage over traditional rollover options.

Extended annual maximum helps employees save money by ensuring they have access to network discounts and 30 percent coinsurance, even after they have reached their annual maximum. Employees can achieve and maintain their best health by getting dental care when it's needed, before oral health issues may affect their overall health and well-being.

Plus, the **Extended annual maximum** is a great way for groups and employees to buy down their annual maximum or coinsurance, or adjust plan deductibles and their out-of-network reimbursements.

30% coinsurance coverage after network discount and maximum benefit is reached

Pre-Determination of Your HumanaDental Benefits

- If you expect to pay more than \$300 for dental care, your dentist may submit a proposed dental treatment plan that Humana will use to determine if your dental benefits cover the treatment.
- This is known as a "predetermination of benefits" (also called "prior authorization")
- The dental treatment plan may include:
 - A list of services to be performed, including any supporting documentation
 - A written description from the dentist of the treatment
 - An itemized list of costs
- Please note: With limited exceptions, predetermination of benefits must be granted before the service is provided. It will remain valid for up to 90 days after the review, and is not a guarantee of what we will pay toward the treatment.
